

Stacking Order for Sheets on Top of Floor

Stacking order for sheets on top of floor

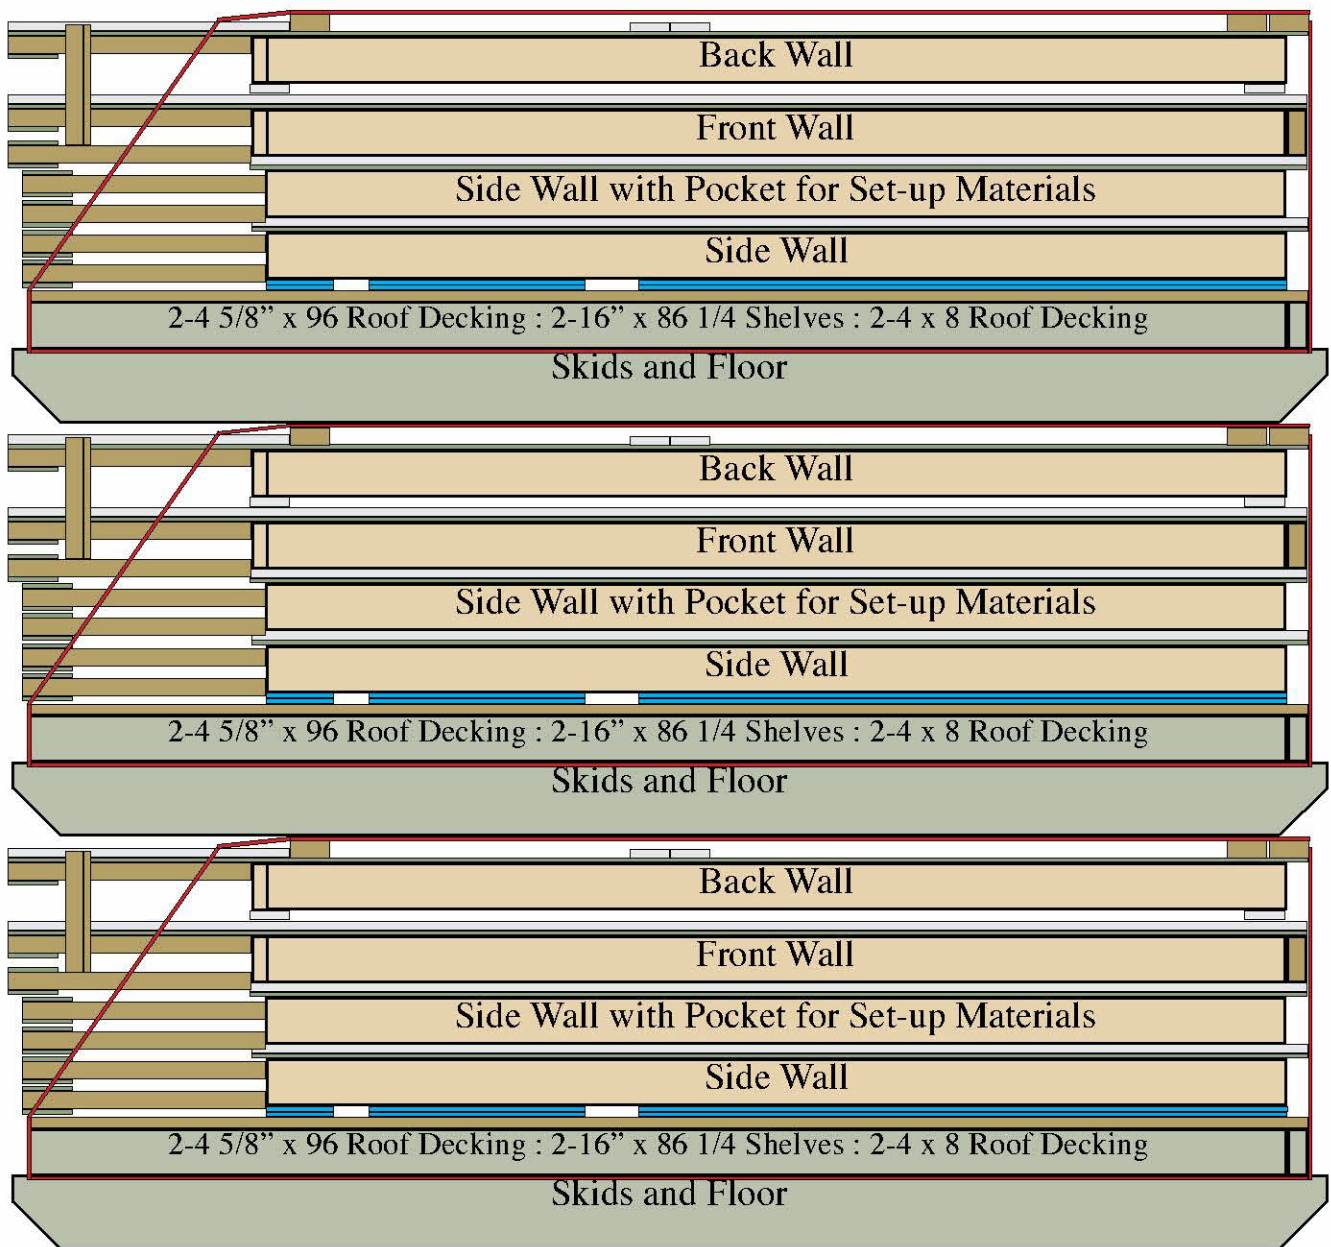

Secure decking and shelves to the floor with 1 – 1-5/8 screw on each side

2 – 96×48 sheets of roof decking set-back 1-1/2" from door end of floor

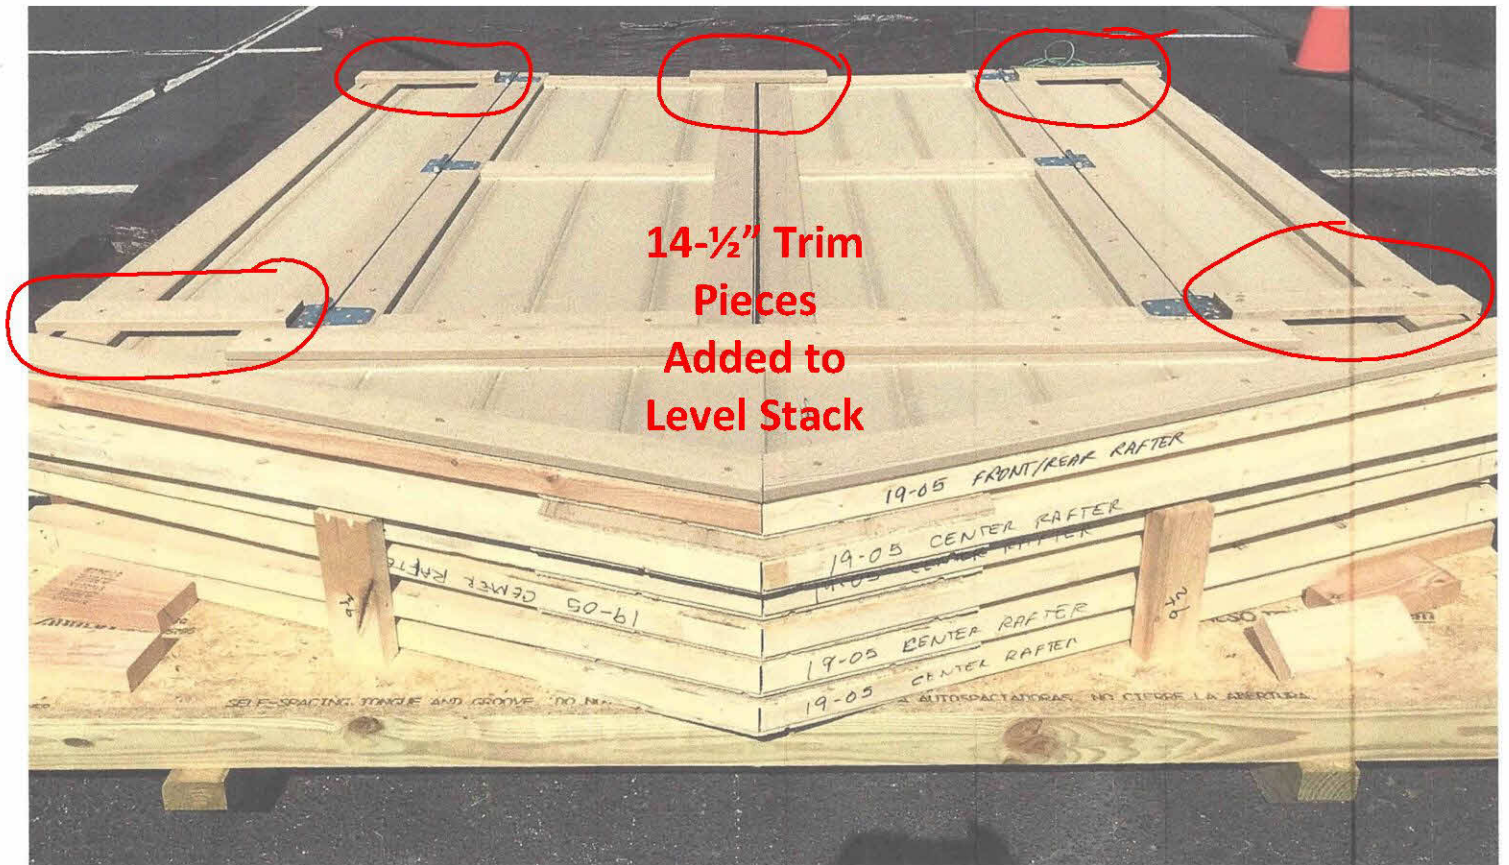

Front of Shed of Hope

Side view of Pre-built Sheds of Hope in Storage or ready for delivery on a trailer.

**Install Five (5) pieces of Trim 14-½” long as follows:
One (1) piece at each corner even with door hinge
One (1) piece at the middle bottom of the doors**

(See drawing below)

Back Wall Trim & Shelf Brackets

The Shelf Support Brackets are used during transportation to protect the back wall from getting damaged and provide a level base for the skids of the shed above.
